What to bring?	Packed Lunch, water bottle, bus pass, jacket, walking shoes
Spending money	NA
Time of Trip	9am-5pm
	Time for a treat for the last day. Pizza and some relaxing time!

Notes:

- All this year's trips and themes have come from feedback from staff, parents, and children. Thank you to all who gave us their feedback.
- If possible, all children should bring their free bus pass with them. An additional charge of £2 may be made on the day if your child does not have a bus pass
- Children should bring the following every day: Packed lunch (no hot food or fizzy drinks), water bottle, walking shoes, sun cream and waterproof jacket as we will be going outside to play as much as possible. Even on nice days please bring a jacket as the Scottish weather is unpredictable.
- If your child is attending a trip or an outing, please make sure you drop them off at the service before the start time of the trip.
- Current P6/7 children with signed permission forms can bring their phones to the service, but are not allowed them out on trips
- Children are not encouraged to bring their own toys, books, and pencil cases as we have plenty here. If they do, it is at their parents' own risk. Children will not be allowed to take toys on trips.
- 2 snacks are provided free every day, one at about 10am and the other at about 3pm. This may be earlier/later if we are on trips.
- Additional money for trips should be paid on the day in cash as we use this to pay for the attraction activity on the day.
- All trips and transport are subsidised from ROSC funds to keep costs to parents as low as possible.
- Spending money should only be given on the days indicated and is optional. The amount is the maximum that should be given.
- On themed in days, we will be offering a variety of different activities to children to ensure that all children are enjoying the day. This is especially true for P1 children and older children.
- Trips may be changed due to circumstances beyond our control. If this is the case, we will try to provide a similar trip instead.
